② Tuples

Dict , sets

( )

Tuples

Tuples are ordered collection of data item. They store multiple item in a simple variable. Tuple items are separated by commas and enclosed with () - round bracket. Tuples are unchangeable immutable. after the creation

Example:

$$tup = (1, 2, 3, 4, 6)$$

$$tup = (1, "Barry", 0.5)$$

$$tup = (1, three, "Barry", 0.5)$$

1	2	3	4	5
0	1	2	3	4

2 person

Admin pannel ⟶

$$tup = (sandeep, manoj)$$

$$lis = (sandeep, "manoj")$$
↓
manoj
